I would like to take this opportunity to praise the artistry of Kevin Rehorn and his Second Nature Dental Laboratory. Kevin has produced some wonderful restorations for me ever since I started my dental practice in Santa Fe. Actually, his work is some of the best dental laboratory work I have seen in my 33 years of dental practice.

His attention to detail and superb personalized attention are far beyond what I have experienced from any of the large commercial labs in business today. The quality of his work and his dedication to making sure the patient has the best possible restoration will keep me using his services for as long as I continue to practice dentistry. Highly recommended!
